SUMMARY

I'm currently navigating a career pivot from the healthcare industry to the technology sector. While I enjoy practicing medicine, I am ready for a new challenge outside of the medical field. At the start of this year, I began an immersive software engineering program at General Assembly. Since then, I've completed 480+ hours of hands-on learning developing full-stack engineering skills through individual and team projects.

SKILLS

- **Technical Skills:** Hypertext Markup Language (HTML), Cascading Style Sheets (CSS), JavaScript (JS), Embedded JavaScript (EJS), Python, MongoDB, Mongoose, Express, React, Node, Ruby on Rails, SQL, NoSQL, JSON, Bootstrap, jQuery, Algorithms, Git, GitHub
 - **Software:** Microsoft Visual Studio Code, Microsoft Office Suite, Epic, Cerner, Allscripts, VelociDoc, CureMD

PROJECTS

War 02/2023 – 03/2023

- I created an interactive card game where a user can face a computer using HTML, CSS, and JS.

Movieopolis 03/2023 – 04/2023

- I created a full stack application where a user can browse through and interact with a database of some of the most popular movies ever released using HTML, CSS, JS, EJS, Node, Express, MongoDB, and Mongoose. I deployed the site on render.com.

Project Name [Mon. Year-Mon. Year]

- [Describe your key accomplishments and activities in 2-3 bullets: What is the most important thing you did? How and why did you do it? Include measurable numbers where possible.]
